Then Our "New Peoria" Is What You Want today.

It has perfect working discs, fitted with dust proof chilled bearings, single draw bars that will not gather trash, staggard spoke wheels with 7-inch hub and 3-inch tires, continuous rear bar with truss rod to support seat and keep drill from sagging, direct pressure in rear of disc; a feature we claim will make this drill work perfectly in any land suitable for sowing grain and where other drills cannot be operated. A seat in center of drill convenient to lever is also furnished. Drop in and let us show you what this drill can do, and furnish you with the tration held yesterd aynames of a score of satisfied users. One feature of our drill that puts it in a class by itself and makes it superior to all other drills on the market is the "Peoria Disc Shoe." You won't find the disc shoe on any other press drill on earth, the Peoria people have that feature cinched and they are going to hang on to it. If you want to know why we can grow more wheat to the acre after this drill than any other with the same amount of grain sown, come in and let us explain to you the "New Peoria Dise Shoe Drill."

TAILORED SUIT!

It is with renewed interest that every American woman looks forward to the tailor-mades each season. It is the one thing which you feel you simply cannot do without. This season you will see many delightfully new and attractive departures in the tailor-mades which will, without doubt, instantly appeal to you.

"FINGER-TIP" LENGTH SUIT COAT

For several seasons past short coat suits have held full sway—but this fall we enthusiastically welcome back the becoming "finger-tip" length, one which gives the coat graceful lines, the one which becomes any figure. The whole effect of the fall tailor-mades are long, graceful lines. Moderated cutaways and flowing collars emphasize the long lines on the fronts of these coats, shirred and belted backs, suggesting the Empire effect carry out further the edict of fashion. LONG, SLENDER LINES.

\$12.50 to \$35.00.
